

FEATURES

Proactive data leak prevention in single or multiple-site locations

Perform up to 75-100 erasures daily per kit

Digitally signed, tamper-proof reporting

Conforms to recognized international erasure standards

Assimilation with asset lifecycle management

Easy, Light and Portable Solution for Your On-The-Go Erasure Needs

Blanco Toolkit is a portable and standalone erasure solution that does not require a network or internet connection. Its carbon fibre-style casing gives it a smart, professional look and feel, designed to perform both onsite and offsite data erasure.

BENEFITS

Ensure Regulatory Compliance Anytime, Anywhere

Carry out both on site and off site erasure with the easily portable toolkit, which functions as a completely standalone erasure tool, with no internet or network connection required.

Report on Best Practices and Create Seamless Audit Trail

Perform due diligence on necessary data erasure requirements and report on best practices to increase stakeholder buy in. Verify proof of compliance among national and international regulatory agencies, including ISO 27001 and ISO 27040 with a tamper-proof audit trail.

Streamline Workflows and Increase Productivity

Simplify and refine internal workflows, processes and policies and strengthen knowledge and awareness within the business. Validate rationale for resource planning and reduce overall costs of asset management.

TECHNICAL SPECIFICATIONS
