

FEATURES

Peace of mind with 100% permanent secure data erasure

Fully compliant with government legislation

Simultaneous erasure of multiple drives

Easy to install and user-friendly

Secure Data Erasure for Flash Media Devices

Blancco Flash is a user-friendly data erasure software solution for use either on a small number of devices or in a high volume handling process environment and is suitable for use on USB drives, Secure Digital (SD) memory cards, CompactFlash cards, MP3 players and any other flash-based removable storage media supported by Microsoft Windows.

BENEFITS

Data Leak Prevention

As the fastest and most secure data erasure solution for flash-based storage media, Blancco Flash provides a 100% guarantee against the threat of data breaches.

Flexible User Management for Process-Efficiency and Reduced Costs

Blancco Flash can be delivered as a simple desktop application or as an MSI package to distribute among multiple users. The software can simultaneously erase multiple devices and display the status of all connected units to enhance process management. Post-erasure reports can be saved locally or integrated with Blancco Management Console.

Fully Compliant and Tamper-Proof Reporting

With internationally recognized erasure standards and support for all major erasure algorithms, Blancco Flash ensures total compliance with both government legislation and internal IT security policies. Customizable post-erasure reports are automatically generated after each erasure, detailing essential hardware information for a tamper-proof audit trail.

TECHNICAL SPECIFICATIONS

USER MANAGEMENT:

Easy to install and extremely user friendly

MSI package can distribute to several users in a large organization

Capable of simultaneously erasing multiple devices

Displaying the status of all connected units during erasure enhances process management

REPORTING:

Automatically generates a detailed erasure report after each erasure

Report details include serial numbers and other hardware specifics

Add custom fields in the report process to capture vital process information

SUPPORTED MEDIA TYPES:

USB thumb drives

Secure Digital (SD) memory cards

CompactFlash cards

MP3 players with flash drives

Digital cameras

Other flash-based storage media

ERASURE:

Erases any type of flash-based removable storage media supported by Microsoft Windows

Optional automatic formatting after erasure (NTFS)

Supports all well-known erasure algorithms

Conforms to recognized international erasure standards

Optimized erasure speed

LANGUAGE SUPPORT:

English, French, German and Japanese. Other languages will be available soon. Please ask your Blancco sales representative for details.

SYSTEM REQUIREMENTS:

Windows XP / 2003 / Vista / Windows 7 / Windows 8 / Blancco Flash Appliance can be used as a hardware alternative to the standard software

AUDITING:

Full auditing capabilities

Standard XML report format for integration with Blancco Management Console
