FLASHPRO
solid-state destroyer

Diverse destruction

Destroys smartphones, minitablets, USB sticks, SSDs and optical media.

Unrecoverable

Shred chips to average size 0.16x0.6in./4x15mm preventing recovery.

SmartCut™ system

Cutting wheels automatically adjust to fit the size of the media.

Enhanced with IRONCLAD

The **FLASHPRO IRONCLAD Verification System** offers:

- Complete **proof of destruction**
- **Image capture** of media pre-shredding
- Record serial number, operator ID and destruction status
- Generate **audit-worthy Certificate of Destruction** and **Destruction Report**

Why shred?

Solid-state media cannot be degaussed, so must be run through a shredder or otherwise destroyed.

Avoid the risks and the hassle of outsourcing to a third-party shredding service provider by bringing secure destruction in-house with the FLASHPRO media destroyer.
