HD-2XTE compact degausser

10,000+ Gauss

Total erasure of magnetic hard drives with built-in field strength verification.

Superfast erasure

Each cycle takes just 7 seconds; you can erase 100s of drives per hour!

Easy & convenient

Compact, lightweight and quiet; no cooldown between cycles.

Enhanced with IRONCLAD

The **HD-2XTE IRONCLAD Erasure Verification System** offers:

- Complete **proof of erasure**
- **Image capture** of degaussed media
- Record serial number, operator ID and erasure status
- Generate **audit-worthy Certificate of Erasure and Destruction Report**
- Also compatible with **PD-5E destroyer**

Why degauss?

Degaussing is **the best way to dispose of sensitive data** on end-of-life media, according to NIST's Guidelines for Media Sanitization.

It's **quicker. easier and more eco-friendly** than shredding, and enables bulletproof compliance with **GDPR & PCI-DSS** regulations.
