

NSA listed destroyer for destruction of magnetic and solidstate media

Fast and powerful

Delivers 7 tonnes of crushing power in 18 seconds or less.

Office friendly

The size of a desktop computer, quiet and no messy hydraulic fluid.

Easy to use

Push-button operation with smart sensors and LCD screen.

Enhanced with SSD-1E

The SSD-1E for PD-5E offers:

- Destruction of **solid-state media** including SSDs and USB flash drives - Pierces, perforates and waffles SSDs using **90 pins**

The PD-5E is also compatible with **IRONCLAD verification**.

Why destroy?

Destroying is the **next step after degaussing** magnetic hard drives, to prevent re-use and prepare the drives for recycling.

Destroying is also the best way to dispose of data on **solid-state devices** - it's **quicker and cleaner** than shredding.
