Blancco Eraser For Apple Devices

Unique, purpose-built software to provide effective, reliable data sanitization for Apple devices, including M1s, M2s, T2s, iPhones and iPads.

Why Blancco

Blancco Technology Group (AIM: BLTG), a carbon-neutral supplier, provides organizations with secure, compliant, and automated solutions that accelerate the transition to the circular economy. All erasures are verified and certified through a tamper-proof audit trail.

With nearly 25 years of responding to customer needs and 35+ patented or patent-pending ideas, Blancco is the industry standard in data erasure and mobile lifecycle solutions. Our dedication to technological innovation empowers top-tier enterprises, IT asset disposition (ITAD) vendors, and mobile industry stakeholders to protect end-of-life data against unauthorized access, comply with data protection requirements, extend the useable life of IT assets, accelerate operations, and enhance the mobile customer experience.

View Our Certifications

ITADs and Mobile Processors of Apple devices often encounter data erasure and diagnostics issues entirely unique from those faced by standard PCs, laptops, and non-Apple mobile devices, with software incompatibilities that render accurate erasure difficult to achieve.

Those users can take advantage of our fully integrated solution designed specifically for their needs with Blancco Eraser for Apple Devices. Blancco works across the entire data lifecycle to provide organizations processing Apple devices with secure data sanitization, assistance to prove regulatory compliance, and the confidence to re-sell, repurpose or dispose of data assets at the end-of-life stage.

Blancco data erasure and diagnostics solutions provide thousands of organizations with the tools they need to manage the processing of Apple devices quickly and effectively to the highest industry standards. Blancco Eraser for Apple Devices is purpose built and the only solution you need to take care of all your Apple device processing needs, with all erasures verified and certified through a tamper-proof audit trail.

Key Benefits

- The industry standard, most certified data erasure software in the world
- Guarantees that data has been erased from any Apple device
- Erasure for Apple M1, M2 and T2 devices, including full cryptographic erasure for Macs
- eSIM detection and erasure
- Ability to specify desired operating system download during M1 erasure
- Certified tamper-proof audit trails, backed by Blancco's digitally signed Certificate of Erasure

Technical Specifications

HARDWARE REQUIREMENTS	REPORTING
• Hardware must be able to run Mojave OS, and Mac Pro desktop towers are highly recommended. The number of devices that can be processed concurrently is restricted when using MacBook, iMac, and Mac mini hardware	• Comprehensive reports include asset details such as device name and model, IMEI code, storage capacity, and diagnostic test outcomes • Reports can be exported as PDF or XML. CSV files are only possible from the Blancco Management Console • Custom fields (such as customer name and asset ID) can be added to reports • Digitally-signed, tamper-proof reports are uploaded and easily accessible via Blancco Management Portal for a complete audit trail • Requires high-end hardware to run multiple firmware upgrades in parallel. • MacBook Air devices are not advised

TESTS	SUPPORTED DEPLOYMENT
• 60+ diagnostics tests • Complete diagnostics tests in as little as 60 seconds • Configure test order and times • Customize diagnostics tests through workflows	• All iOS devices, version 9.0 and up (erasure) • iOS (smartphone and tablets) version 10 and up* (diagnostics)
