Blancco Drive Eraser

- Blancco Drive Eraser is the Blancco premium offering, providing customers with secure, certified erasure and reporting at all levels, allowing for re-sale, recycling, re-use or disposal of data storage endpoints (laptops, PCs, Chromebooks, external drives, servers etc.)
- Delete sensitive data from SSDs without compromising drive functionality
- Full NIST compliance with support for NIST Purge and Clear

Blancco File Eraser

- Blancco File Eraser is perfect for active data platforms and individual projects on a repeat basis, reducing erasure process complexity and streamlining enforcement of data retention policies
- Secure removal of selected, locally-created files and folders from desktop PCs and laptops, without endangering other files; schedule and automate erasure of temporary files on a regular basis, ideal for travel with no USB requirements
- Available in desktop version or data center version for use in multi-tenant environment
